MONTHLY FOCUS

Get ready, because June is all about connection, collaboration, and leveling up our personal skills! As the summer sun kicks in, we're diving into Cooperative Opportunities - think teamwork, friendships, and fun with a purpose.

We're turning up the energy with activities that build communication spark self-awareness, and sharpen those essential daily living skills. All while keeping the good vibes flowing. Because summertime isn't just about sunshine it's about growing together, supporting each other, and having a blast doing it.
